Passionate computer science student with a deep enthusiasm for coding and design, aiming to harness cutting-edge technologies in full-stack development. Excited to craft innovative, user-focused applications while continuously evolving as a versatile developer in both front-end and back-end domains.

EDUCATION

- **Bachelor of Computer Application | St Joseph College (Autonomous)** Jun 23 - Mar 26
- **Higher Secondary Education | SN HSS IRINJALAKUDA** Jun 21 - Mar 23

TECHNICAL / SOFT SKILLS

- **Programing Languages:** JavaScript, HTML, CSS, PYTHON
- **Frameworks/Libraries:** React.js, Express.js, Node.js (Basics), Dart
- **Databases:** MongoDB, SQL (Basics)
- **Soft Skills:** Time Management Skill, Decision Making Skill, Team Work
- **Tools:** Git, Github, VS Code, Vercel, Render

INTERNSHIP EXPERIENCE

Mern Stack Developer | Internship | Easy courses (May' 1- 30 2025)

Designed and built a Task Management Application using MongoDB, Express.js, React.js, and Node.js. Gained hands-on experience in full-stack development, implementing CRUD operations, REST APIs, and responsive UI components.

Research Assistant | Internship | Mastering Campus Careers (May' 1- 31 2024)

Developed innovative strategies based on market trends to enhance website impact. Designed and optimized websites and social media platforms to increase brand visibility, attract clients, and boost engagement.

ACADEMIC PROJECTS

PaveGuard – AI-Based Road Health Monitoring System

Developed an AI-based system to detect and classify road damages, achieving up to 90% accuracy using YOLO and OpenCV. Designed an intuitive user interface to visualize and manage road condition data using Flutter and web technologies, and implemented backend services with Python, PHP, and MySQL to efficiently process and store real-time data.

EXTRACURRICULAR

- Industrial vist to UST Global at infopark
- Attended employability skill training programme Mahindra pride by naandi foundation
- Idea presentation program
- Workshops on cyber security and new technology

CERTIFICATIONS

- Deep learning and deployment on web | Bootcamp | devtown | 7 Days
- Amazon clone using Html, Css & JavaScript | Bootcamp | devtown | 7 Days
- JavaScript & React.JS | Bootcamp | devtown | 7 Days
- Introduction to Microsoft Excel | coursera

ADDITIONAL INFORMATION

- **LANGUAGES:** English, Malayalam, Hindi
